SENATORS CLINGING THEIR FISTS

Threatened war in the Senate is among the conditions that are agitating that body at present. Since the army bill passed Congress there seems to be a determined purpose to cut off free speech in the House of lords by rule. Senator Platt is of the opinion that Democrats talk too much about things that should not concern them under an imperialistic system of government such as exists at this time at Washington.

The street-war Senator from Ohio is of the opinion, which has been loudly and repeatedly expressed, that Democrats should be shut off from mouth participation and practice in the business of the country. The defeat of his late subsidy bill is the cause for his opinion on the subject.

The millions saved to the people by the interference of Democrats through the defeat of the subsidy scheme caused burnings in the breast of Mr. Hanna that have consumed for the present any mercy that may be perceived in the dim distance in his composition. Revenge is upon his lips, and leath to free speech and Democrats in the Senate flows through his mind in liquid thought in torrents.

Senator Jones and other Democratic leaders have declared in return for threats made by Platt, Hanna and others that any attempt made to threaten free speech in the Senate or free debate will cause action more forcible than words, and that any such outrage would not be permitted while they lived to oppose it.

Keep cool, gentlemen, keep cool, as these are times when it requires more than heat to direct the ship of state. These are times when the ancient landmarks of the republic are being outraged one after another to meet a new system that a majority of the people know not of, and any physical force used to preserve ancient rights in the Senate or in the Republic will receive punishment from McKinley's army.

Democrats should bear in mind that an opportunity is sought after to use the army to secure and complete a revolution that is quietly going forward in the imperialist party.

Roosevelt said in a speech made during the campaign that "Democrats are cowards," which had a meaning that should not be lost sight of by conservative men. The declaration of Roosevelt about the cowardice of Democrats and the threats to destroy free speech in the Senate, taken in connection with his position as President of the Senate and the late increase of the army, together with McKinley's absolute power over it, should not be misunderstood in connection with threats to cut off debate in the Senate. The imperialists will not destroy or overthrow the Republic. It will remain when they have exhausted their efforts to change our Republican system, providing caution controls the action of Democrats.

CUBA IN THE TOILS

There is trouble anticipated with Cuba. The Cubans do not like any intermeddling by the United States in their affairs which is natural they should not care to be dictated to by an outside power that came to them in the character of a friend under protest disavowing the most disinterested intentions.

The Cubans might not feel in any particular humiliated over the superior jurisdiction of the United States but they do not care to have McKinley as a suzerain. A superior lord in the person of McKinley is not inviting to the Spanish mind. The ideal of a superior after the manner of a feudal lord in half barbarous times is not desirable in their way of thinking. Paramount authority is not what they had reason to expect when Congress had declared that the United States would act toward the people of Cuba in the most disinterested manner.

It was so loudly expressed and proclaimed to the world that humanity was the moving cause and the only consideration the people of the United States had in view when they went to relieve Cuba from the tyranny of Spain, that the people of Cuba were deceived to an assurance that good faith was connected with the work taken up by the United States government. The people of Cuba are not the only people who have been deceived by a cry of good faith from those who have directed affairs in Cuba in the name of the United States. Deceit has been practiced so often by the same class that it is becoming very generally known that such a thing as good faith is not a part of their morals.

The Cuban war made a beginning

which had been long sought for the purpose of imperializing the United States by placing an irresponsible power at the head of affairs in government. This irresponsible power at the head of government has been given an army to be used according to the will of irresponsible power, which will be used as all armies have been to perpetrate the power that controls the army.

Cuba is a very proper place to make a beginning to exercise power as it is more near the center of power than the Philippines.

THE RIGHT-OF-WAY BILL.

The JOURNAL has just learned that a bill giving the right-of-way over the State or any part of it to a foreign railroad corporation was defeated in the Assembly yesterday. The defeat of the bill was a mistake. A general law granting the right-of-way to foreign railroad corporations should have been on the statute books of the State long ago, and the only reason there is that such a law was not passed before this time is that for the corporations have not been. In the State in this State. The law will not confer any right to private property or in any way interfere with the rights of any private citizen. The law will confer upon a road built within the State by a foreign corporation the right to use by its roadway against a ruler who may seek to interfere with a roadbed to its injury. The object is to protect a road against trespass by other roads or other interests in opposition to what should be under the law rights acquired. The bill should be reconsidered and passed by all means.

COPPER MINING

A Correspondent Writes About This Industry in Humboldt County.

With the advent of spring affairs are taking an active turn at Cottonwood, the new copper camp in Churchill county. Manager White of the Copper company has returned from Philadelphia where he spent the winter and will at once put thirty men at work on the mine and in the smelter. He expects to have the smelter running early in April.

The recent storm in that section did great damage to the wagon roads. The main road has to be carried on horseback over part of the road. Churchill will spend a thousand dollars fixing it up, and the damage in Humboldt county on the road to Lovelock is considerable.

Manager Schweitzer of the Bell Manufacturing company at Cottonwood reports a big strike in their property. They have run into a body of ore for over 100 feet and still no hanging wall. They have six feet of ore that carries over thirty per cent copper. They have started a fifteen hundred foot tunnel that will cut the ledge at the depth of five hundred feet. Cottonwood promises to be a lively camp this summer.

The O'Randers have made a rich strike of gold and silver in Trinity district near Lovelock.

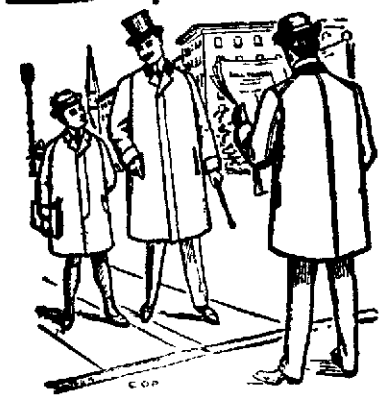

It is expected that the Lovelock company will start up next week.

C. A. Hitt is back at Lovelock and says that the railroad to the iron mines will be built this summer.

MR. NEWLANDS' IRRIGATION WORK

A Confutation of a Carping Carson Newspaper's Criticisms.

House of Representatives, Washington, D. C., February 24, 1901.
EDITORIAL APPEAL.—I am in receipt of a letter, enclosing an item from the Carson News, headed "Newlands Irrigation Bill a Rank Failure," and stating that the bill I have introduced is so constructed as to please the greatest possible number of legislators, and irrigate the smallest possible number of acres of land in Nevada.
I have introduced in the present Congress, three bills regarding irrigation. The first was for the Humboldt river, as that was the only project in Nevada at that time favorably reported by the Geological Survey. Later on a favorable report was made by the Geological Survey on the Truckee River project, and I then introduced a bill authorizing the commencement of all the projects in the arid region which had been favorably reported, and making appropriations for surveys of storage projects not yet favorably reported. This necessarily put the Humboldt & Truckee rivers in the first class on which construction was to be commenced, and the Carson, Mohave and Virgin rivers, as well as the other irrigation in the latter class of surveys. As construction necessarily costs more than surveys, the appropriation provided for the Humboldt was \$70,000, and the appropriation for the Truckee was put at \$80,000 thus simply providing for construction of part of the projects reported. The appropriation for surveys and artistic investigation was put at \$15,000.
In the construction part of this bill I put only such projects as were favorably reported by the Geological Survey; in the survey part of the bill I put only such projects as were recommended to me by the Geological Survey. The charge that I showed favoritism to the Humboldt and Truckee rivers is entirely unfounded. The

Geological Survey, of its own motion and not prompted by me, took up those projects first.
The third bill which I introduced provides for the application of the proceeds from the sale of all public lands to a special fund to be called the Arid Land Reclamation fund to be under the direction of the Secretary of the Interior, not only for investigation but for actual construction of such projects as he deems practicable.
I was obliged to introduce the bill in this way, without providing for particular projects, in order to escape the dissensions and jealousies of the different States, aroused by the naming of a specific project in any one State. In other words, the great difficulty with the irrigation question is the dissensions and jealousies of the various States, similar in character to those which the article referred to seek to promote regarding the various rivers of Nevada. Work must be commenced somewhere, and it cannot be commenced in all places at once.
This last general bill is the bill which with amendments, has been favorably reported by the Committee on Irrigation of the House. It has also been accepted, with certain amendments, by Senator Henshaw, Chairman of the Committee on Public Lands in the Senate, and has been favorably reported by that committee. Its essential principles have been also accepted in a bill reported from the House Committee on Public Lands. But although its plan of action has been endorsed by three important committees, the leaders of the dominant party in the House refuse to give irrigation legislation consideration, and we are now urging action and bringing every pressure to bear upon them with a view of securing a vote.
Very sincerely yours,
FRANCIS G. NEWLANDS

ATTACKED BY TOUGHS

A Truckee Editor Meets With Harsh Handling by Bad Men.

Editor Miller of the Truckee Republican is laid up with a stab in the leg. He is paying the penalty for telling the truth in a town where truth hurts a certain proportion of the population.
Reno is like unto Truckee in this respect and the JOURNAL localizer is liable to follow Miller's footsteps to the hospital—if he doesn't see the other fellow first. Tuesday night he narrowly escaped a knife thrust and the following night a shot was fired in unpleasant proximity to his devoted head.
Of course, it is highly probable that the effervescent spirits of the P. I.'s and their relatives are entirely responsible for the aforesaid knife and gun play, and that no animosity is felt toward this chronicler of local events.
But as it may, the JOURNAL is continuing to report the officers in its humble fashion and will stay with the proposition until the moral atmosphere of Reno is cleared.
M. Miller is the JOURNAL's sympathizer. It is hoped and expected that the good people of Truckee will have the courage to voice this wrong.

RENOITES WEDDED

Two Worthy Young Renoites Take the Marriage Vows.

Chris Johnson of Reno and Miss Mae Steekman of Chicago, formerly of Brandon, Iowa, were married at the residence of W. W. Morton, one mile south of Reno, at 7:30 o'clock Wednesday evening. Mrs. Johnson was a trained nurse and came to Reno to keep house for her uncle, W. W. Morton, where she met Mr. Johnson, who is foreman of the ranch.
The bride was dressed in white satin, with bridal veil. The groom was dressed in the conventional black. Nels Johnson of Winnemucca and W. E. Morton of Reno acted as best men. Miss Mabel Morrill and Miss Marie Johnson of Reno were bridesmaids. Miss Ada Morrill played the wedding march and Rev. B. F. Haddleson of Elko, Charles Short of Washoe was the little page, and his little sister was flower girl.
After congratulations were tendered all the guests returned to the dining room, where a sumptuous report was served.
Mr. Johnson is a worthy young man, and has won for himself a companion who will make the path of life more pleasant to tread. The presents were numerous, beautiful and useful. May long life and happiness be the lot of Mr. and Mrs. Johnson.

A WRONG IMPRESSION

Mr. Brearley's Appointment to State Board Improperly Construed.

The JOURNAL takes this means of apologizing to Joseph H. Brearley for an unintentional injury done him the other morning in an article that came from a supposedly authentic source.
The article in question stated that Mr. Brearley's appointment to the State Board of Agriculture was part of a proposition to convert the State fair grounds into a racing park similar (on a smaller scale) to Oakland or Tanforan.
In justice to Mr. Brearley and his partners, Messrs. Unisack and Wilson, who have been injured by that article, be it said that there is no truth in the published report.
Mr. Brearley is one of the most public-spirited citizens of Reno—a man who works for its material prosperity—and he would not be a party to any scheme that would injure the city.
His appointment by Governor Sadler to the State board was in recognition of his integrity and public spirit.
The Dexter-Tuscarora mine at Tuscarora is to be listed on the Boston Curb Exchange.

DURING LENT.
We have arranged to supply
those who desire them, such special
food preparations as may be prescribed
for the Lenten Season, and yet are
of a healthful and nutritious character.
It is perhaps unnecessary to particu-
larize, but here are mentioned a few of
the many food products procurable at
our establishment for consumption at
his time of the church year.

IT'S EASY TO CLEAN.
Easy to keep clean; easy to
sharpen, easy to keep sharp—the grade
of table and kitchen cutlery we offer
the good people of Reno. Reason
not difficult to find: made from the
Air kind steel and other materials,
made by skillful workmen, properly
ground, finely tempered and polished.
Handsome handles in multitudinous
designs. Carving sets in fancy boxes
keep the dirt and rust out, you know.

**Many Things
Are Meant**
By many dealers who claim to
handle groceries. When they adver-
tise GOOD GROCERIES no mention is
made of PRICE. When price is
mentioned QUALITY IS OVER-
LOOKED. Again, sometimes they
dwell on the virtues of a LARGE
STOCK. In this case no claim is
made to carrying FRESH GOODS.
